

MAT MOVER® SERIES

Mat Mover®

Return valuable floor space to your facility and protect your wrestling mats or lightweight cheerleading mats with an 1100 Series Mat Mover from Porter. The Mat Mover provides a wide array of design configurations and sling hoist options to fit the needs of your specific facility. Available sling sizes and configurations are capable of storing multiple 6ft or 14ft long mat sections.

Three distinct lifting modules, consisting of a single 3 HP motor drive unit and two lifting drum units, integrate into a streamlined design platform that will deliver long-lasting customer satisfaction. System includes a separate mounted control panel unit with main electrical disconnect switch, control circuit transformer, and audible motion safety alarm device. Audible motion alarm will alert athletes when the unit is in motion.

CEILING SUSPENDED

- 91107000 Single Stationary
- 91107002 Double Stationary
