# TE TA S N A T R

# EMPOWER ANY SPACE.

Translate makes the entrance to any room captivating. With a unique design and thoughtful details, users will genuinely enjoy this collection.

Angled, low profile frames with frosted dividers create an open personality, with a hidden understructure to ensure stability.

Our modular pieces feature built-in power/data options and integrated wire management solutions, while freestanding choices keep things simple.

# SEAMLESS TRANSITIONS.

Most spaces need more than one table, but combining them can create an awkward transition from one table to the next. With Translate, each table combines seamlessly for a beautiful look while also providing a smoother and more functional space for any need.

# CREATIVITY INSPIRES.

Create straight, pod, or arc-shaped units to create workstations and collaborative spaces that inspire. Give your own creativity a chance and download our CAD files to imagine the space of your dreams.
